Is there anything else you would like to share?

Of all the area schools I have dealt with, Goal is far and above the others.

Thanks to Goal, my son is able to graduate top of his class. We love the education and all of the teachers,.

My child has only been with Goal Digital Academy for a short period of time but our experience has been very good and my son even told me in a conversation that he wished he could have started at Goal a long time ago!

I love the bond goal staff shares with all of my children, they are beyond helpful and make sure the kids have everything they need. Also they go above and beyond to make learning fun , which in turn makes the kids love going to school online and going into there lab as well my kids look forward to going into the lab each week to meet with their teachers and seeing other students. I also like that they do events to make the kids feel like it is as normal as they can like a traditional school for them.

My child has academic challenges and they are so great with meeting her individual needs.

We have loved everything about GOAL paisley is excited again about school which is something i never thought we would see!

I was told when we enrolled in the school that live lessons were recorded and could be watched each week and I found that that is not the case.

Goal has been amazing.....

We love her teacher

Not right the whole class pays because 1 student can't behave that kid should be held accountable not the whole class!!!

Some assingnents are screwd up from whoever makes them. Its hard to reach the most important ppl you need to speak to then its the parents fault but u cant do anything when no return calls and text are done.

My child doesn't usually go to the lab therefore some of my answers can't really be accurate.

The teachers an counselors are amazing!!

Would appreciate if any of your staff would stay later than 3:30p.m. because a lot of us parents work later and the kids can't get the help they need in lab.

Since my child has attended goal I have not once heard anything from his teachers only get grade cards in mail

I believe teachers should teach math & not common core . My daughter is failing at math because she's not being taught to understand math. In my opinion not only is she failing math , it's on the teachers! I'm not happy with this part of the system. It's not right!

My child has had a very successful two years with GOAL digital academy.

The kids that go here work really hard and I feel as a parent that the students need more of a recognition from the school. As a parent I would like the school show them some love and support as well.

I am proud of the school I am attending.

Letters went out for the State Testing date, place and time. However when I received the letter, one of the test had already pasted. Therefore my student missed out on the test. I had called and left a message for a call back, which I never received.

We enjoy the privilege of homeschooling.

My student is a CCP student so not many HS classes, her guidance counselors have been very helpful and communicate wonderfully, the secretary in the mansfield lab is fantastic. I am unsure what the job description of the student advocate actually is but hers is not in any way helpful. Communication is poor. Any questions we have had the answer is to direct us to someone else. We have made unnecessary trips to the lab which includes me leaving work to do so due to lack of communication between advocate and us and advocate and the other staff members in the building.

I love how the teachers take the time to help each child learn, find their learning style, ask for feedback, and build a strong relationship with each student.

You have been great to work with. I'm saying I strongly disagree with some things about pride and building relationships because my son is not making an effort in his education. You guys have been going above and beyond trying to help. I appreciate all of your.

Not at this time.

Sondra Herren-Carey is one the best teachers that my son has ever had she shows all of her students that she truly cares about them. If it wasn't for her my son would not be graduating in May. He would have dropped out of school. I am so grateful for Sondra. And her helping my son and helping me.

We have been part of this school for years and this year it seems that u no longer care about my kid it's ashame that u have to many student and the old ones get ignored

Definite favoritism with certain teachers and others are to busy with "regular" school students to even respond to "online " students questions/texts. Very disappointed in this program! I have 2 children who have done online since COVID started and carried C's& above, and both are receiving the worst grades they have ever received! I've talked to other parents of students who switched to GOAL and they are also failing??? I'm wondering where the problem really is???

My daughter loves school but she is struggling with Math very badly

Pretty good for an online school overall

I am so glad I got my daughter in this school. She has improved her grades because she now gets the help she needed.

Im so greatful for all the help the staff has given caden and I through some rough times! They are all the best!

Just recently started so I can't respond w any type of answer other then I neither agree nor disagree for most of the questions

My kid hates school

One teacher in particular is very helpful she used to be the go to for parents. The current person that is supposed to be there to help parents and students was not useful. He was not able to assist us in finding work where it was located or help with resources like she was. Very disappointed in his performance

My son loves GOAL and plans on attending until graduation that's how much he enjoys it and the staff! I am beyond grateful and thankful for GOAL!

GOAL has been a great school for my child! I have been very pleased!

I appreciate how my child is doing at Goal, so much better than she was at public school. This fall she will be going to ctec thanks to Goals preparing her for her future.

Thankyou

I have been very impressed with the staff at Goal, they have gone above and beyond to help my child succeed. Ms. Hale, Hope Losh and Mr. Smith have truly gone the extra mile to help Jesse, adapt and excel in online classes. I would highly recommend Goal to any parent for their child.

Moving our grandson to Goal from Madison was the best decision we ever made. He struggled in the beginning but his teachers helped him so much. He has built relationships with them and trust them if he has a problem he can go to them for help. I would absolutely recommend Goal to any parent with a child who is struggling fitting in or academically.

Goal is an absolutely amazing school. Both of my kids were struggling in large classes in public schools but since coming to goal that have done amazing and is so open to learning better and understanding more. I would definitely recommend this school to any student

No thanks

I would love to get an emailed weekly report of the kids progress. I would love to see a set standard for grading assignments. It's hard to keep track when assignments aren't graded promptly.

This program has been amazing for our daughter. She struggled in school since elementary school. High school was a challenge academically and socially. Since joining Goal she has become empowered. She feels in charge of her education and the pace which she goes. She is able to work and go to the DACC.

Marion goal lab the staff goes above and beyond for my daughter!! Thank you for the love and support

this has been one of the best experiences we both have had with a school system

thank you

i love goal!
