I think it's a great school, and if you got more students to the labs i'd strongly recommend it to any other student. However I personally do better in Brick and Mortar

this school is great, great teachers and staff

Most of the teachers try their best to help any student that needs it no matter what the issue is. The teachers treat us like our age and don't look down on us for things we do.

It's a good school I just need to take more responsibility

I like my teachers at Goal, they always will work with me.

i need to be more responsible

I am very happy with my teachers

In my school students support me

my school encourages me to do my best.

This is my fourth year and I would recommend our school. We do much more work than Public school. This is why we will excel. The teachers here care about the students. I like my school and the teachers very much. They provide us parties, gifts for count week etc. Thank You

I miss Hayes so my feelings are mixed

pepole needs to stop being mean like austin he is mean he bulllys me

Maybe have teachers make the information for an assignment a little more understanding (especially in english).

I feel like I've done better in this school, with teachers helping me when they can. They zoom me when needed and everybody's seems to have fun and care about each other.

Over all I like my school.

GOAL Academy helps me feel comforted.

This school is amazing and I think they should get a trophy. All of the staff members are really amazing and nice especially my teacher, Mrs. Saltzgiver.

I went through a really rough time when I started here, but the teachers and staff really helped me get through it. While it was not easy I knew I could always ask for help and they would give me everything I need to be successful, not just as a student but as a person.

there nothing else

love the school.

I love this online school option at goal digital, its super easy and I'm starting to understand things more and it makes it easier for me to do my school work.

I love this online school for goal digital because its super easy and its helping me understand things more so now i can get through my school work easier because goal digital has made it understandable for me.

I would recommend Goal Digital to other friends as it is a nice lax place were you can work on school work when you feel ready to instead of being forced to when you have little to no energy

pretty good

I have told many of my friends, family, and even strangers about this school because I love it. All of the staff make the school feel so safe and make their students feel cared for. I haven't had any bad experiences at this school and I am now a Junior. I have been going to this school since 4th grade and I love it so much.

i love my school

The information you compile from these surveys are never going to be accurate.

Its better than regular school

good

Goal Digital is so far my best school experience out of many others, as I've moved around a lot and also attended a couple other online academies. I wish I'd been able to do this sooner!

Tests on Kami are hard sometimes.

I like my school.

Mr snouffer is the best and keeps me motivated

the teacher that i have are very understanding and like to help. Not everything is about school which makes it 10 times better

Its a great schoool, I'd reccomend it to everyone but myself. Not that it's bad I just personally do better in brick and mortar

It's a great school. I'd recceomend it to everyone but myself. Not that it's bad or anything I just personally do better in brick and morder

I love my school and I know a lot of information.

its a really great school and i love the teachers and staff

Most of these questions dont help because i dont go into the labs i only stay online outside of the labs. also i dont know how my teachers feel about me I enjoy some of the programs they use but others i dont like.

We often go to the Marion lab. The outreach from all of the staff is more than amazing! They really care, and you can tell!

this is our first year being apart of the goal digital program we are still learning the rop's of how everything works it does over all seem like a good program just alot that goes into when still learning how it works

great safe place

are schools not a\ll about school, are teachers talk to us about our life and the outside life. It makes it better or us students because were not so into are head trying to do school.

I always feel encouraged to do my best and work hard at my school, plus I love all the teachers and the resources the school offers me.

thanks for the points

love it here.

This is the best decision i have made to come into Goals Digital Academy.

I just struggle at times because I am not in an actual school and coming into the lab is not always easy. For we do not live in the same town as my lab and we do not always have gas to come once or more a week. I also have a learning disability.

I love my school.

I've only been here since the start of the second quarter but the staff are amazing. With every question, encounter, or conversation they've helped.

good

The teachers and staff are so nice that they'll even help you if you're failing or if you're behind on work!

I like having a school like Goal, it has helped me with my social anxiety, it allows me to learn in my terms.

Brings a whole new value to online school, I can regularly attend labs to receive help on anything I need, or if I just need some time to work I can do that without hassle, great school!

I like some programs more than others some help me learn better

i just get overwhelmed easy

I have been struggling with school and staying consistence because of pregnancy but trying really hard to be present.

i kinda like this school

yes please i guess

yes please i guess

I like this school and hope I can get the help I need this year to graduate on time so I can go to the military.

i just think it would be better in some other ways for people like me

The school is very big on teaching their students responsibilty and timley manners. They are big on what is expected of you in the real world and in your work. But do not enforce these on the teachers. I find that teachers are late posting stuff which is unexeptable as it is there job to post work on time or find a sub. the solution I was given is to drop the class instead of the teacher having consicences to their repeating actions.

i really like the school and what it has done for me

I don't have any more information to provide.

Just want to say Jeri Armstrong has always looked out for me to make sure i am not slacking and makes sure i am going to graduation she is just the best and always looks out for the students!

Some teachers need to focus more on when students ask for help or contact them.

my teachers are great.

This school is the best i have every been too.

i don't have and more information

I don't have any other information at this time.

I feel that faculty listens about ideas, but never follow through. Example: FFA

I've been going to Goal Digital Academy for 4 years and it's really given me the chance to become what I want.

Thank you!

i love attending here

i do not have any other information

Nothing just thanks

This is a great school.

Its a great school.

This school is safe and the teachers will work with you to help me understand

teachers need to work on contacting their students back

I love being around my teachers, they always have a positive attitude, they are always very helpful and if it takes you a little bit more time they are very patient. They always have a variety of snacks anybody can eat, and I personally love how they have feminine hygiene produces in the bathroom just because alot of school bathrooms do not.

Its pretty nice and chill here
