### **Frontline**

Working with internal team members to learn and understand the newly updated Frontline system. Taking an in-depth look into our application process and subsequent criteria for each application.

Reviewing the application process and the initial information being collected. The goal is to collect what is needed while streamlining the process for applicant ease of use. To date, several application questions have been removed as these are items that can be asked during an interview or confirmed as part of the interview/onboarding process.
