

## Board Report August 2023 Achievement & Leadership

We will be restructuring how copy and printing jobs are tracked and monitored. The following processes will be in place.

- We will be setting printer/copier codes for each employee and for every grant or contract being run through MOESC. Once established, staff may have different codes aligned to different funding streams. Staff will need to be mindful to use the appropriate code when making copies/prints.
- Printing Large Orders
  - Departments making copies or prints over 200 pages will need to run print job through the print shop.
    - Must have a purchase order for printing jobs
    - Must plan ahead
- Codes will be tracked and monitored monthly.

A new service started in 2022, CCIP and federal program supports has expanded to three schools in 2023.

- Clear Fork
- Galion City
- Loudonville-Perrysville

The following schools are continuing the process of creating a mission, vision, and strategic planning during the 2023-2024.

- GOAL Digital
- Ravenna Schools
- Lexington Local
