Other than my lack of effort, goal is an amazing place. If I had tried much harder I could succeed.

This is a good school but I this semester was hard for me to get all my work done. A lot was going on.

I like this school but this last quarter I had a hard time getting all my work done.

I like this school but I had a hard time getting all my work done and turned in during 3rd quarter

I like my school, cause I can move at a pace and time that works for me.

Most of my answers are in the middle because I haven't used GOAL Digital a lot, and this is my first day.

I didn't really understand what some of the questions was asking me

I like my school, because I can work at my own pace and set my own schedule.

This school is overwhelming to say the least.. I'm not used to home school, and some kids may find it simple. Falling behind a week at any school is stressful, but just the thought of sixty assignments is so hard to think about getting done in one week. Which just causes me to fall behind more. So I'll try my absolute hardest to stay ahead of the game!

I'm not going to recommend a school for people to go to if I'm unsure I'll be in it that year.

This is not my home school. My home school is Sciotoville Community Schools

I don't really like school but this one is easier and could help me get my high school diploma. I was gonna drop out like my moms and not get my GED or maybe I would I don't know.

I'm not going to recommend a school that I might not go to.
