i don't have anything else
I just hope everyone likes Goal.
its a really fun school
i love my school
I only attend the labs for math, but everytime I go in, everyone is super helpful and nice. Being someone who has a lot of anxiety and can't feel very comfortable around other people, this is one of the few places I actually feel safe and not embarassed to be bad at something.
amazing school ever since i transfered i feel like i have more time in my day to do other activites and i can do school work without having to sit in a huge classroom for 7 hours a day
that most things depend on how influential my PTSD is that day that you can clearly see by most of my answers
my school is cool
I get just enough independence and the teachers consistently check in to make sure if you need any help. they do and suggest whatever they can to make sure you are not only successful at this school but for life ahead.
It is good
I love my school.
I love school coming here and having fun and doing work
my team is the Cincinnati Bengals we lost the super bowl last night so i'm real off right now
Since I've attended GDA My grades have been better then I've ever had in my life. I've been on honor roll like four
I love Goal! It's refreshing to have a school that actually does something to help their students.
i do not have anything else
i love this school its nice cause my moms job causes her to drive a'lot and i can take this computer with me and do it on the road if need be
We have had a great experience with goal digital.
I feel like there is no other information to be specified.
Goal is a really good school, the staff is very helpful, caring and understanding it's amazing
For me I just honestly need a lot of help with everything.
i have fun at school
I love GDA
I enjoy the independence I have at goal.
I like my school, I would just prefer being in person.
This school is awesome
I love goal digital!
This school is a great choice for those wanting to be home schooled! It's much better than alternatives like connections academy, which I've also attended.
i dont have any.
i have nune
I think this school helped me with learning.
it's my first day so i don't know most of the answers.
Clear instructions, I am a slow thinker and it frustrates me when I still don't understand what I'm supposed to do.
her teacher miss whitmer is amazing takes time to be one on one with her students
i love this school everyone here is nice
Goal Digital is the best thing that could've happened to me, educationally.
I love this school
I think this school is wonderful and I highly recommend.
This school has made me appreciate school more and i haven't even thought about switching ever while attending this school just because of how much i like it
No other information
The teacher help me out though a lot of stuff
Um, i can't think of anything?..

My teacher is awesome. Me and my parents like the freedom to do the school work on are own time.

Friendly

I like my teacher

My teachers are really nice.

I have suggested to others to come herre

i feel safe and i like the outhur studets

I love all my teachers and other staff. They treat everyone with care and I always tell my friends how good this school is. I had a few of my friends join.

I like being able to work at my own pace and at the time of day that works for me.

I like my school. Sometimes I will get mad if I dont know the answer because I will second guess myself.

Its better than regular school

the teachers are good but the only problems i have is with math and with art

I have nothing else to add.

nothing else to add.

I get very overwhelmed and stressed with the amount of assignments that are given to me, because I am slower at getting them done and then I get very behind.

most of the stuff in social studies science and reading so long and hard

they work with you and find time to help you when needed

this school makes my shedule flexible

Thank you for your help!!

Thank you for your help!!!

best decision ever made for me was to attend Goal Digital

all my teachers try to help me even if im not motivated to do the school work

no other information to provide

i just came back to this school

they are kind and well informed and collective

great school, but wish we got better food

I really can't think of anything else.

I am filling this out a lab in which I come to a couple of times a week-My previous school was mean to me. I feel the staff listens to me at the lab and help me. Thank you.

Teachers are always available to help me.

i hate this school but its safe

I like the School, however the one thing that is really off-putting is that theres no prom or homecoming, only graduation and other small events at the labs. A prom would be something to look forward to.

I do not work well with other people, I'm way too shy and can barely make eye contact for one second with people i barely know. I probably will not tell any one if I need help with school work. I also can not tell people what exactly I'm having trouble with. when there are too many people i just want to freeze up or go away.

i love goal, but i'm not actually in the lab enough to know the teachers and to feel safe

i dont have any except that yall best not shut the school down

I just started here yesterday but so far im loving it

My other information is i think this school is great!!

There is nothing elts I can say that I can think of at this time.

goal digital academy that is a school i think

One of my favorite schools!

i don't believe online schooling is good for me

i just love this school

I feel great in my school

nothing just a normal school that provides technologise need and some of the staff and teachers are nice and stuff but last year i fialed cuz i did ot know how to submit and no one showed me thats the only problem i had

GOAL Digital Academy is SOOOO AWESOME!!!!, ALL of the Teachers and Staff/Administration are always that we have see so very helpful to both the students and parents too and always make it a point to get with parents when both parties can and let them know how students are doing, and also how they can help them, as well let them know of any difficulties they are experiencing in any subjects, and what they need to do to make them better and up to correct levels for goal and the state of OHIO, the teachers and advocates do a GREAT Job of also communicating with all their students, and letting them know where they need more help at and work at, they also let them know always that they are here always to help and if they are out they let them and parents who can help them either by Zoom if Labs are closed or in the Labs and always encourage them to come to their Lab as often as possible or one of the other labs if can't get to theirs if they are in one of our other lab school areas and need help. I really love and Appreciate ALL of you at GOAL and also our MID OHIO EDU Center for sponsoring us and goal and doing all you can to help goal and our children and all of the staff at GOAL too. Thanks Again and KEEP UP the AWESOME Work!!!!
Sincerely, Quinton, and Family (Leavens Family)

This a great school with great people that are really nice and care about students

I was failing when I went to cardington and as soon as I came to goal I did a complete 360 they truly are life savers.

I would've never found the motivation to push threw high school if I never came to goal.

im glad that I came to this school instead of any other online school.

I have been to two (2) other schools before this one, one of them I attended from k- half of 8th, and the other one half of 8th to half of 9th. I never could manage more than 2-3 A's at a time but now I have all A's.

I thank you I try to treat my teachers with respect by Sir, honor I told my male teachers I am honored to meet you. Female of course I like.

Don't really know what to say here, so I'll just say the school attendance is much more flexible, which helps a lot.

I like the school, labs are pretty good. But I personally don't do well with the learning structer

it's a good program

It's a good school.

i love my school

Goal Digital Academy should be there for all students but there not always there for all of them they leave the bad ones out

They sent me a birthday card even

I have no more information.

I have told others about Goal Digital because it has help me out and I did not drop out of school because of Sondra Carey

I always feel very welcome when I go, which is saying a lot considering how uncomfortable I normally am in public places.

i really like this school and the opportunities it gives me to not be at a traditional high school where i'm not

i am happy

just started cant really answer questions.

i love our school and i think everyone should go here

best decision ever for me

I have been doing a little worse at school lately than I had been. It is not my schools fault though. I have just had personal issues that i have been dealing with. The school does help offer me help in anything that i need though. I would say that Goal digital has been the best online school that I have attended.

I have really liked being part of Goal better then being in public schools

I came from Highland high school, I participate in billard tournaments on the weekend. This is important to me, Highland did not care. I come to the Cardington Lab and the teachers there really help me. They chat with me and I know they care. My name is Curtis.

i love my teachers they are the best

If I had to tell more and more people they should come here and do school I will because this place is amazing and everyone here is one of a kind soul

and choose what student is better than the other student but i also think goal is for the lazy students cuz all the need to do is take there computer home and do it when ever they want as long as its done by sunday at 12:00 midnight and that they should attend a school building that will really help them and be there for a full 8 hours and not a easy 5 hour day

its cool i guess

it is a great school for one on one help

I really like goal I would probably not be in school if not for the caring teacheres.

I am grateful for the opportunity to be a part of GOAL.

i like this school
