Head Start preschool programs are for children from 3 to 5 years of age and their families. Early Head Start programs serve children 6 weeks to 3 years of age. Head Start is mandated to assume a leadership role in the development of partnerships with community agencies and service providers. Each Head Start, Migrant and Seasonal, and American Indian/Alaska Native Head Start program must have a written agreement with the local school systems (LSS) or the local education agency (LEA) to coordinate and collaborate to best meet the needs of children and their families.

Ohio Heartland CAC Head Start maintains an open recruitment and enrollment effort throughout the year. Outreach efforts include public service announcements, wide distribution of community fliers through various agencies and churches as well as to current families and participation in community events.

As required by Head Start Performance Standards, the program uses established enrollment criteria to select the "neediest of the needy" for the program. As is allowed by regulations, we are able to accept 10% of the population as over-income children, but frequently these slots are reserved for children with disabilities. Of the total enrollment, 10% of the children must be identified as having disabilities.

Data from the program Community Assessment indicates that there are grandparents raising grandchildren in Morrow County. Recognizing that Head Start enrollees are being raised by grandparents, program recruitment efforts include reaching out to this population as well as to current families with infants and toddlers in the home. When grandparents are the primary caregivers for the children, developmental summaries will be shared with them and staff will assist them in the transition from Head Start to public school.

**642(f)(10) Develop procedures for identifying children who are limited English proficient, and informing the parents of such children about the instructional services used to help children make progress towards acquiring the knowledge and skills described in section 641A(a)(1)(B) and acquisition of the English language**

Ohio Heartland CAC Head Start will work with families identified with limited English proficiency as much as possible. The program will access other community services, including ESL programs, as necessary, to ensure a smooth transition into the public schools. Ohio Heartland CAC Head Start works with translators to ensure that agency forms and other information is available to non-English speaking families. Ohio Heartland Head Start has the Family Handbook, Head Start 101, flyers, In-Home Activities, pre-registrations and other information available in Spanish.
