

Business Advisory Council

Teacher boot camps were successfully completed in Richland, Morrow and Crawford Counties. 36 teachers completed the Bootcamps and the Ashland Course that provided them with 3 graduate credit hours. DRM Productions was able to capture some B-roll of the tours and interviews with teacher participants. I will share the video once available. Pictures below show teachers learning about some of the newest technologies in manufacturing.

After School & Summer Learning Grants (SPARC Council) “READY FOR HIRE”

The Ohio Department of Education completed an on-site visit for the Ready For Hire program at Richland New Hope Industries summer site. We were asked to produce a dozen additional documents, over and above the compliance reporting required paperwork for the summer program that was submitted to the Ohio Department of Education on June 30, 2023. The visit seemed to go well, but we received no official feedback from the ODE consultant. Next on the compliance list is an additional survey required by the Ohio Department of Education through their contracted entity, the University of Cincinnati. This “survey” is to report the yearly activity as it pertains to the After School activities held last school year. This will be completed by the end of July.

21st Century Community Learning Center Grants

The summer programs at Galion have now concluded. Evaluation data has been checked and sent to the local grant evaluator. Compliance and Performance Assessment documents from Galion High School have been reviewed in anticipation of the onsite visit and desk audit due in December 2023 that will pertain to the 2022-23 school year activities and documents.
