Deadline to

Register May 17th

[Autism Summer Program](#)

Eligible Participants

Students with Autism Preschool through Second Grade

Registration up to 10 students per Group (Total 20)

Ratio: 1 Adult to 2 Students

**Summer Programming &
Extended School Year Services**

Your student will participate in a variety of theme-based activities similar to a traditional summer program, while also receiving naturalistic application of Applied Behavior Analysis (ABA). ABA treatment plans target the development of specific skills across areas including socialization, play, adaptive behavior and language, with an emphasis on communication skills. Services will be provided using a tiered delivery model. A Board Certified Behavior Analyst (BCBA) will design and supervise treatment goals and oversee Registered Behavior Technicians (RBT) in working directly with the student, in collaboration with an Intervention Specialist and Speech Language Pathologist to address academic and language IEP goals. Every week we will do weekly themed activities all while working towards each students' personalized set of goals.

**CONFIDENTLY LEADING THROUGH
COLLABORATION, CUSTOMIZATION AND CREATIVITY**
