\$ 100,000

Congratulations! Mid-Ohio ESC (IRN# '123521') has been approved for continuation of a Nita M. Lowey 21st Century Community Learning Centers (CCLC) grant (CFDA# 84.287) (USAS Fund Code 509) for FY25 (Galion Elementary FY21- Grant# 16177). Ohio's CCLC program supports the goals of Future Forward Ohio, the state's strategic priorities for supporting students, and your organization is an important partner in this work. This award is contingent upon funding from the United States Department of Education and based on your good standing with the 21st CCLC program office and review of your continuation plan. All new program managers are required to attend the 2024 Nita M. Lowey 21st CCLC Orientation and the Data Collection & Evaluation Training, held virtually October 1-2, 2024 (program managers attend both days - evaluators attend Day 2 only). The Ohio 21st CAFE Family and Community Engagement professional development is also available to support your outreach efforts. Training begins virtually on Tuesday, September 10, 2024. Your 21st CCLC Program Manager designated in the CCIP may register at <https://go.osu.edu/21stcafe-foundations> to attend the professional development.

Registration information will be sent to the email address for your 21st CCLC Program Manager designated in the CCIP. Systems Access: To access the CCIP grant system as a 21st CCLC grantee, your Ohio Educational Directory System (OEDS) administrator must ensure any new grant staff are assigned the appropriate user roles. One person must also be assigned to the Program Manager - 21st Century role - this person will receive all communications related to the grant. The following roles can also be assigned as needed: Data Entry Funding - CCIP (multiple staff can be assigned to this role); Data Entry - 21st Century (21APR) (monitoring module only); and Data Entry Compliance (compliance monitoring system only). Fiscal information and requirements: The current award period for expenditures and obligations will be 7/1/2023 until 6/30/2024 (FY24), during which all goods must be received and all services must be provided or delivered in time to substantially benefit the population being served for this award year. While obligations can be entered through June 30, ordering and receiving goods and services at the end of the FY may be deemed unallowable. Program receipts and expenditures must be tracked using your USAS fund code (above) and each FY grant should have its own special cost center. YOUR TREASURER/FISCAL REPRESENTATIVE MUST SUBMIT YOUR INITIAL and subsequent project cash requests (PCRs) via CCIP since this is a reimbursement grant. For budget revisions, requests of 10% or more within any object code require a CCIP status change to begin and a justification in the history log for approval of the revision. Department approval is required before the expenditures/obligations are incurred (per the revision's effective date). Annual final expenditure reports (FERs) must be submitted via CCIP between June 30 and September 30. REMINDER: 21st CCLC funds will not allow for the following expenditures: food, grant writer fees, vehicle/building purchase, construction, or any major repairs/renovations - see the 21st CCLC fiscal resources at <https://21stcenturylearningcenters.wordpress.com/fiscal/> for additional details. Congratulations! We look forward to continuing to work with you to serve Ohio's students
