Read Ohio Leadership Projects:

- Whitney Imhoff, NW team Mid-Ohio Coach, represented the NW quad well at the May ReadOhio Network meeting presenting on her work in Elyria supporting a 5-8 building with curriculum and disciplinary literacy in math. She also is featured at the June Literacy Academy presentation on Ohio's Coaching Model. She may be utilized in future presentations with the state support team directors.
- Kyrie Lee, NW team coach in Fostoria, is participating in a cross-state Literacy/Executive Function Cadre that will collaboratively learn about this important cognitive application in supporting literacy in schools. She was one of 3 chosen in the entire project.
- Tiffany O'Neil, our NW coach in Sandusky, was one of two chosen in the project to help create Coaching Modules for the state and share her work inside Ohio's Coaching Model.
- I submitted a Department of Education and Workforce proposal for contract on behalf of MOESC to continue the management and implementation of regional Road Ohio Literacy Coaching Project work. We are currently waiting to be notified of an award for 40 counties significantly expanding our footprint in the state of Ohio. Stay tuned.
- May 12: Participation in a math/literacy ESC study group on supports to connect this work.
- April 28-May 1: Participated in a national sponsored cadre of state leaders who are representing the implementation of literacy policy and innovations regarding coaching. The event included learning about an instructional coaching course authored by leaders in Mississippi and Florida (who have led the charge alongside Ohio in innovations leveraging coaching systems across our home states).
- May 2: Concluded the facilitation of the Toledo PLC pilot. We all collaborated with the RELS, Debbie Nagel and Urban Specialist, Nick Jacobs at SST1. Leveraging the experience of the coaches, NW Coordinator (me) and state support for the benefit of the project was successful in trying out this diversified support for coaching in community and urban settings.

Thank you for your support,
