

CONFIDENTLY LEADING THROUGH COLLABORATION, CUSTOMIZATION AND CREATIVITY

Board Report July 2025

Leadership & Learning

Districts continue to communicate needs for the upcoming year in literacy, math, and gifted education. We also have the opportunity to continue supporting leaders and students in several districts during the summer months in planning, summer camps, and professional development.

Gifted:

Consultants: Sherri Richter, Leanna Ferreira, Jenny Pennell, Rebecca Kidney, Lisa Gonzalez, Colleen Haynes, Leah Barger, Danya Davis, Connie Massaro

- The team worked with district personnel to finalize data and reports for submission to the state that impact funding and report cards. After school concluded, many consultants worked with districts to review schedules and student placements as schools plan gifted services for the upcoming year, aligning them with the changing Gifted Operating Standards in Ohio.

Literacy & Math:

Consultants: Sherri Richter, Heather Dillon, Lisa Walter, Connie Massaro, Danya Davis, Leanna Ferreira, Rebecca Kidney

- Lucas Local Schools joined MOESC to present at the Ohio Department of Education and Workforce Literacy Academy. Lucas teachers and administrators shared how support and partnership with MOESC consultants, as well as participation in the Adolescent Literacy Network, strengthened student outcomes.

- The consultant team is working with districts to define and plan needs for professional development sessions in August and September. As many district calendars are similar, there are many requests for these opening day sessions that require coordinated efforts.

Grants & Other Supports:

- We received preliminary confirmation of allocations to maintain the Adolescent Literacy Specialist position to support districts throughout our region.
- Several districts have benefited from our support as they adjust to the updates to change to the One Funding Application from DEW and secure a July substantially approved date.
