

Board Report May 2026 Achievement & Leadership

Request from the State

DEW has asked MOESC to accept a contract to hire a state-level leadership consultant that will be primarily with all ReadOhio schools. We were hand selected because of our ReadOhio work and our relentless commitment to literacy and promoting the importance of strong school leadership.

Student Leadership

MOESC has hosted another successful Student Leadership Conference. Over 200 students and 20 adults attended this year's event. Throughout the day students had access to hands-on leadership activities, leadership practices that can be taken back into our schools, and advice from two of Ohio's most impactful leaders, Dr. John Mahoney and Mr. Doug Ute. Our next Student Leadership Conference will be in October 2026, hosted by The Ohio High School Athletic Association.

Construction Project Update

Progress continues the construction project. Phase 1 is in full swing. The new entryway is framed, electric and HVAC have been installed, and drywall is being hung. Custom cabinetry is being built for the main office and for the superintendent secretary's office.

Installation of conference center digital room and office display systems are moving forward. A crew has been running cables and preparing the walls for installation.
