Re: Rejection of Resignation

Dear Ms. Wilburn:

This letter is in response to your August 19, 2026 letter informing me that you are resigning effective August 31, 2026. Please be advised that R.C. 3319.15 prohibits a licensed individual from terminating an employment contract after July 10 of any school year without the consent of the board of education. In that regard, the statute further states that, "[u]pon complaint by the employing board to the state board of education and after investigation by it, the license of a teacher terminating the teacher's contract in any other manner than provided in this section may be suspended...." For purposes of R.C. 3319.15, you are considered a teacher as described in R.C. 3319.09.

Furthermore, the Licensure Code of Professional Conduct for Ohio Educators states that both of the following actions constitute conduct unbecoming of an educator: (1) "Abandoning the contractual agreement for professional services without prior release from the contract by the Board of Education or designee according to Ohio Revised Code 3319.15" and (2) "Willfully refusing to perform services and duties required by the contract...."

The Mid-Ohio Educational Service Center Board of Governors currently employs you under a two-year limited contract, and the Board of Governors has not approved your resignation. Accordingly, if you fail to fulfill the responsibilities set forth in your employment contract with the Board of Governors, the Board of Governors will report your misconduct to the Ohio Department of Education and Workforce and seek suspension of your license pursuant to R.C. 3319.15.

Please contact me should you have any questions.

Sincerely,

Kevin Kimmel  
Superintendent
